Combined Module of Touch Panel and Temperature Control

COMBINED MODULE HC3506 TOUCH PANEL AND HC3530 TEMPERATURE CONTROL

A combined module consisting of an HC3506 Touch Panel and an HC3530 Temperature Control. The combined module offers 14 touch-sensitive touch fields, 8 of which are for controlling the room climate via an air conditioner and 6 fields that can be individually assigned for controllable room automation functions. We design the glass panel individually according to your wishes and provide you with a selection of colours and icons. You can get the combined module in both portrait and landscape format.

Note: The combined module is operated together with an HDC15-V3 Room Controller, an HDCL-V3 Light Extension and an HDCC-V3 Climate Extension.
